WEBVIEW™

Manage your billing processes and receive payments 24/7 with WebView™, BestBill's proprietary online bill-pay portal. This all-in-one technology handles all your billing needs, and provides your customers with the tools to view their account information and make a secure payment online.

WebView is a document management system that seamlessly integrates with your website and existing software. Consolidate billing processes into a single, online dashboard for your office staff. With permission-based roles, staff can interact with billing statements, payment history, reports, and customer databases.

Improve customer service efforts—your staff has instant access to customer billing documents, which can be sent via email, fax, or mail. WebView is fully customizable, and can mirror your brand and website.

WEBVIEW BENEFITS

- Increase Productivity
- Speed Up Cash Flow
- Save Time and Money
- Meet The Needs of Your Customers and Employees
- Manage All Your Billing Documents in Real Time, 24/7

GO GREEN. E-STATEMENTS.

Transfer your billing and invoice information electronically to BestBill, and we'll handle your statement processing—from print and mail to emailing monthly statements and notifications to your customers. Once they receive their statements, let them view and pay their balance online.

WE COMPLETE YOU

Whether your customers prefer to pay online, by mail, or by phone, WebView captures payment data and electronically reconciles it with your payment system. Enjoy total control, real-time access, and 100% visibility of every payment and billing document.

BestBill's suite of technology tools are designed to enhance your billing processes and improve your cash flow position. Visit www.bestbill.com to learn more.
